- Expertise in applying Object Oriented Analysis and Design(OOPD) concepts like Inheritance, Polymorphism, Encapsulation and Abstraction.
- Good hands on experience in SQL-Queries and stored procedures, functions, Triggers using SQL SERVER 2012/2014
- Team player with smart skills with sharp learning curve.
- Experience on NodeJS and ExpressJS

Professional Experience

- Working as Software Developer with Stigentech IT Pvt Ltd, Hyderabad from April 2019 to till now

Technical Skill Set

- Programming Skills   :   **C#. Net,TypeSscript**

- Web Technologies   :   **Asp.Net,Angular10+, HTML,Ajax.**

- IDE Tools   :   **VS1019,VS2013,VS2010,VSCode**

- Database   :   **SQL Server,Firebase,MySql**

- Web Server   :   **IIS Server**

- Scriting Technologies   :   **JavaScript,JQuery**

- Other Technologies   :   **.Net Core, Bootstrap**

Project#1

Sanjeevani Health

Description:

        This project typically involves patient information and medical history, staff information, room's and ward information, appointments scheduling, doctors information and pharmacy information. Sanjeevani will automate the management of the hospital making it more efficient and error free. It aims at standardizing data, consolidating data, ensuring data integrity and reducing inconsistencies

Contribution:

• Used ASP.Net architecture for application development

• Worked with Web Forms.

• Involved in design and use of partial Classes.

• Implemented Ajax Functionality in views by using JQuery

• Involved in design and definition of database objects like Tables, Procedures using SQL Server

• Designed the UI

Environment	: Dot Net 4.5 , C#
Technologies Used	: ASP.Net, C#.Net, ADO.Net, HTML, SQL Server 2012, AJAX, JQuery
Roles and Responsibilities	: Design and Development.
Duration	: 1.2 Years

Project#2

Sanjeevani Health (Migrated from Asp.Net to Angular)

Description:

        This project typically involves patient information and medical history, staff information, room's and ward information, appointments scheduling, doctors information and pharmacy information. Sanjeevani will automate the management of the hospital making it more efficient and error free. It aims at standardizing data, consolidating data, ensuring data integrity and reducing inconsistencies

Contribution:

• Used Angular architecture for application development

• Worked with components,services and directives,gaurds etc...

• Involved in design and development of angular application.

• Implemented interfaces,classes, contructors and cutome types(Enum) etc...

• Involved in design and definition of database objects like Tables, Procedures using SQL Server

• Developed cutom pipes,custom directives,reactive and template driven forms, gaurds and Error handling

Environment   : Dot Net Core(3.1) – API,Angular11

Technologies Used   : C#.Net, ADO.Net, Angular, SQL Server 2012

Roles and Responsibilities **:** Design and Development.

Duration   : 8 Months

Education qualifications

- B tech from Rise group of Institutions,Ongole - Andrapradesh

Declaration:

       I hereby declare that above mentioned details are correct and complete to the best of my knowledge.
